

WeLearn – BYO iPad Program

Required Apps Register

Required apps are to be installed on the iPads of all students in the BYO iPad Program. This will need to be done at home prior to bringing the iPad to school. Teachers may request additional class apps throughout the year, or they may suggest apps for individual students based on individual students learning needs.

Required Apps Selection Process

At Palmwoods State School, the following criteria is used to select required apps for the WeLearn BYO iPad Program:

- **App design:** App promotes creativity, imagination and encourages the use of higher order thinking skills including remembering understanding, applying, analysing, evaluating and creating
- **Appropriate content:** Content is appropriate for age of student (recommended age may suggest otherwise)
- **Differentiation:** App settings and/or content can be easily customised to meet individual student need
- **Engaging:** App is motivating and engaging for learners
- **Feedback:** App provides specific and useful feedback
- **General:** No in-app purchases required for use
- **Privacy:** Student personal details are not shared and students are not required to enter personal details to create an account
- **Relevance:** App's focus has a strong curriculum connection appropriate for the intended learning
- **Sharing:** Content/data can easily be exported, copied or printed
- **Usability:** Student can launch and operate the app independently
- **User Data:** User data is saved from session to session

Parents and students are encouraged to read the department's [Cybersafety and Cyberbullying guide for parents and caregivers](#).

While all internet traffic at Palmwoods State School is filtered and monitored, parents are encouraged to monitor their child using the internet outside of school.

Parents are welcome to email any questions or concerns to WeLearn@Palmwoodsss.eq.edu.au.

Apple Apps		
	Classroom	Free
	Keynote	Free
	iMovie	Free
	Clips	Free
	Numbers	Free
	Pages	Free
	GarageBand	Free
	Apple Books	Free
